## flexible harmony versatile

Inspired by nature, the mindo 108 puffs are designed around organic shapes, complimenting each other to one whole. The soft and curvy lines form a two-parted upholstery, where shades of natural colours create a contrasting yet harmonies palette. Flecks in the textile make a vivid surface, with a warm and soft touch. The shapes are designed to stand on its own, as well as complementing a lounge environment, making the puffs very versatile. The two sizes and three colourways ensure a variant for every taste and every moment.
