

mindo 112

by mindo Design Team

durable practical comfortable

Designed by mindo's own in-house design team. Created to fulfil the basic needs of outdoor dining. Highly practical as it requires a minimum of maintenance and offers great comfort when enjoying dinner with friends or your loved ones.

mindó 112 is not designed for a specific table but fits the mindó 111 Extension table well as it shares the high flexibility and compelling simple design expression. Its deep green color makes it a suitable companion for tables in many colors and materials – especially natural wooden materials like teak.
