

A modern outdoor lounge set is positioned on a wooden deck inside a pavilion with a glass and wood roof. The set includes a grey sectional sofa with wooden slat armrests, a matching coffee table, and a teal accent pillow. Sunlight filters through the glass roof, creating a warm atmosphere. The background shows a lush green forest.

mind[®]
made for moments

Outdoor collection

DESIGNS THAT MAKE EVERY MOMENT COUNT

mindø® is a Danish based outdoor furniture brand with an international perspective on outdoor living. Born of an idea of creating a versatile assortment of high-quality designs that supports a simple concept – made for moments.

By that we literally mean every moment where it is possible to ‘check-out’ and enjoy 2 minutes on your own, time with friends or dinner with family. mindø® is created for gardens, terraces and urban spaces. We strive to be part of many types of moments, hence the versatile mix of furniture and expressions. What ties it all together is a passion for timeless design, premium quality and sustainability.

mindø® – made for moments.

THE MINDO DESIGN TEAM

We *mind* what we *do* at mindo®, and we have based our designs on some guiding principles we share with our designers and skilled sample makers. We use high-quality materials and aim to design durable furniture that lasts for years. Practical furniture and accessories that have a purpose and are designed for use on an everyday basis. The look and feel is inviting and warm, and we hope the designs we have created will be at the centre of special moments for people all over the world.

mindo 100

by Thomas E. Alken

This modular lounge group is inherently versatile. With seven modules, a lounge chair and a separate daybed. Designed to stand out and yet blend in, no matter whether you live in the countryside or the city. The teak and the durable aluminium frame ensure it can be placed in a variety of settings and still retain its good looks after years of enjoyment. To complement the lounge group, a choice of coffee tables is available with ceramic and teak tops.

mindo 100 is designed for maximum comfort and comes with weather resistant cushions.

Modular design with many possibilities

With seven different modules, the possibilities are endless for how you create your next lounge environment. Corner sofas, sofa with chaise longue, or put two daybed modules together to make a huge nest to enjoy with your family or friends.

daybed

mindo 101

by Thomas E. Alken

This dining concept offers superior comfort and unique details that set the scene for special moments with friends, family or some peaceful moments alone. The dining chair has a unique aluminium frame, with a teak seat and a handwoven back made of high-quality rope with a soft yet durable surface. Comes in two colour options, as do the matching dining tables. The dining tables are available in Ø100, Ø120 cm and 220x90 cm in teak with a ceramic centrepiece. The 220x90 cm version with an all-ceramic top divided into three sections is also available.

Size guide: Ø100 cm / Ø39.4 inches · Ø120 cm / Ø47.2 inches
220x90 cm / 86.6x35.4 inches

made for
outdoor
moments

mindo 102

by Thomas E. Alken

Based on the same design as mindo 101, a durable, elegant and very comfortable bar chair was developed. Suited for restaurants, hotels or other places with a need for high dining options. Made with a durable aluminium frame, teak seat and a handwoven back of high-quality ropes with a soft yet durable surface. Available in two colours. To accompany the bar chair, a matching table concept is available – made in durable aluminium with a strong HPL table top or teak top.

mindo 103

by Thomas E. Alken

A simple yet sophisticated daybed for the small urban terrace or favourite greenhouse retreat. Its style will blend in with a variety of architectural styles – e.g. with options of a white frame with light grey webbing or a warm grey frame with dark grey webbing.

made for
reflection

mindo 104

by Thomas E. Alken

These side tables are available in four colours that fit in with many types of furniture. Easy to move around; the removable tray can also be used to carry a hot cup of tea or a glass of wine. The tables are made of aluminium. A great deal of creativity went into the unique and timeless design of the table.

mindo 105

by Thomas E. Alken

A lounge chair designed with special aluminium profiles and durable Batyline fabric. Designed for use in hotels or private homes. Easy to clean and, after a rain shower, the special, open Batyline fabric will dry quickly, allowing this lounge chair to be used all year round in all sorts of climates. No extra cushion is needed to achieve sublime comfort. In essence, a chair for those who just want to enjoy the moment but do not have a lot of time to spare.

made for
enjoyment

mindo 106

by Odos Design

A very special lounge group featuring unique Italian rope and specially developed aluminium profiles. A relaxed statement with the focus on comfort and a design with an emphasis on craftsmanship, to be enjoyed again and again. A lounge chair, footstool, two-seater sofa and three-seater sofa are all available in three colours. In addition, a symbol of this design concept: a high-back chair allowing for privacy and a moment to simply relax. To complement the lounge group, a stylish coffee table with a ceramic top is available.

mindo 107

by Rikke Frost

A classic yet modern lounge group based on an organically shaped aluminium frame, round Italian rope and teak. Designed for daydreamers or for those waiting in a hotel lobby for their dreams to come true. Inviting in its design approach, with loose back cushions – easy to organise for individual comfort. mindo 107 includes a daybed, lounge chair and 3-seater sofa. Ideal to mix with mindo 109 side tables – add two of these and you have a matching coffee table solution.

coffee table

made for
relaxing

mindo 108

by Rikke Frost

Create your own lounge environment with a few flexible poufs. Ideal for the small terrace, rooftop bar or as an extra seat with your more classic lounge group. mindo 108 is available in two sizes and heights. Designed with a strong aluminium frame with a special combined upholstery solution, giving it a modern look.

mindø 109

by Rikke Frost

This elegant side table is based on an organically shaped aluminium frame with a practical teak shelf. Comes in four colours, so it will fit in with many different types of furniture. Can be used outdoors all year round or indoors to complement a lounge chair or lounge group.

mindo 110

by Rikke Frost

A concept of decorative cushions has been developed to flavour the mindo range of furniture. The concept is built around a “two-sided” design, which allows the cushions to be turned/flipped to bring a new colour/fabric into focus. The fabrics used are high-quality outdoor fabrics.

A special premium choice of decorative cushions is available in a unique Italian fabric with a “wool-like” surface, which makes them ideal for indoor or outdoor use. These special decorative cushions are the same fabric and colour on both sides.

To create unique spaces around the furniture, a range of handmade rugs based on Italian rope has been designed. These unique rugs are designed for outdoor or indoor use.

mindø 111

by Jesper K. Thomsen

This unique aluminium extendable table is designed in a very special way – no traditional extension leaves are needed. Simply pull one end of the table, and the table expands. It takes just a few seconds. Adding room for extra guests has rarely been easier.

Available in two sizes and colours.

Extension benches available in 2 sizes and 2 colours

The unique extension system allows you to extend the table from 258 cm to 325 cm (100 inches to 127 inches) in a few seconds.

mindo 112

by mindo Design Team

Stackable aluminium chair designed for those who prefer a simple and durable design with excellent comfort. Available in a deep shade of green and dark grey, making it a compelling companion to the mindo 111 extending table.

mindo 113

by mindo Design Team

Naturally durable and easy to maintain. Well suited for hotels, restaurants and other places in need of an inviting and spacious lounge chair. Made from aluminium profiles and special aluminium sheets – all supporting a transparent, strong design. A practical small round aluminium table is available to complement the lounge chair.

mindo 114

by Christian Juhl

A unique stacking dining chair and lounge chair – very comfortable thanks to a specially designed knitted fabric. The knitted back is made from high-quality Italian polypropylene yarn designed for outdoor use. Its bold nature allows air to flow, ensuring comfort even in hot climates. The frame is based on a combination of stainless steel and aluminium in order to balance strength and flexibility. A loose cushion, e.g. with Sunbrella fabric, is available. mindo 114 comes in two colours: beige or grey.

mindo 114 is another sophisticated table concept – made from special cast aluminium parts and profiles. This creates a strong yet slim and elegant frame, intended to be timeless.

Available in two sizes: 200x90 cm (78x35 inches) and Ø95 cm (Ø37 inches). To complete the concept, there is a choice of two different table-top materials: ceramic tiles or teak.

lounge chair

mindø 117

by Rikke Frost

A versatile bench concept made with an elegant aluminium frame with a warm teak seat. Available in 2 sizes. Designed to enjoy a nice view, your favourite spot in your garden or simply as a place to rest outside a café. Fits in where a 5-minute break is needed.

The large version comes with an integrated bowl – for your favourite herbs or for ice to cool your drinks.

The smaller version is designed without a bowl to fit balconies or simply where space is limited.

COMFORT AND CUSHIONS

For mindo® comfort is essential. Therefore, we build up a comfort profile of each model together with our designers.

Based on the comfort profile, we design individually fitted weather resistant cushions for each model.

All cushions come with superior water repellent outdoor fabrics designed to withstand a rain shower. All fabrics are highly resistant to UV exposure and are easy to clean.

WE DESIGN OUTDOOR FURNITURE THAT LASTS

Our designers decide what are the best combinations of designs, colours, frames and fabrics to ensure that you get the best mindø experience. In comfort, in durability and in timeless design.

Further this has the positive side-effect of enabling us to reduce our carbon footprint throughout our whole value chain.

With longer lead times and conditions to be confirmed, we do offer other combinations, e.g. for hospitality projects.

PROTECTIVE COVERS

We recommend that the products should be checked and cleaned regularly to maintain the look and properties of the furniture and materials. For winter/off-season storage, it is advisable to cover the furniture with furniture covers; it is important to ensure proper ventilation under the covers and to make sure that cushions and teak are not wet when storing them.

MATERIALS

Citel:

Citel offers high-quality 100% solution-dyed acrylic fabrics produced in Spain. mindó has selected a collection based on different collections by Citel. All collections are designed for outdoor use and come with a repellent surface that enhances water repellency and delays the adhesion of stains and dirt. This effect will decrease over time depending on climate, due to the effect of UV, etc.

We suggest cleaning with a soft bristle brush and some lukewarm water/mild soapy water. Air drying is recommended in order to prevent mildew. We recommend cleaning the cushions regularly as appropriate to the climate; stains and dirt should be removed swiftly after they are discovered. Do not steam-iron the fabric afterwards; only use a dry iron on the lowest temperature setting, e.g. through a cloth. It is advisable to test a small area first.

Sunbrella:

Sunbrella is a high-quality 100% solution-dyed acrylic fabric produced in France. The fabric is designed for outdoor use and comes with a repellent surface that enhances water repellency and delays the adhesion of stains and dirt. This effect will decrease over time depending on climate, due to the effect of UV, etc.

We suggest cleaning with a soft bristle brush and some lukewarm water/mild soapy water. Air drying is recommended in order to prevent mildew. We recommend cleaning the cushions regularly as appropriate to the climate; stains and dirt should be removed swiftly after they are discovered. Do not steam-iron the fabric afterwards; only use a dry iron on the lowest temperature setting, e.g. through a cloth. It is advisable to test a small area first.

Italian Fabrics & Ropes:

Made from 100% solution-dyed polypropylene yarns using special UV protection and antioxidants in a patented spinning process, these fabrics and the rope offer great resistance to sunlight, dirt, chlorine and sunscreen cream for many years. They are recyclable and designed for outdoor as well as indoor applications. This high-quality material offers an unusually soft, “wool-like” surface, which is not only very comfortable but also has strong anti-allergenic properties.

We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The fabrics/rope can be washed with lukewarm water (<90°F/30°C), e.g. with some mild soap. A soft bristle brush is advisable. Do not dry in electric or gas dryers, and avoid ironing the fabrics/rope. Excessive heat will shrink the fabric. Air or line drying is recommended.

Italian Rugs:

Made from 100% solution-dyed polypropylene yarns using special UV protection and antioxidants in a patented spinning process, these rugs offer great resistance to sunlight, dirt and chlorine for many years. They are recyclable and designed for outdoor as well as indoor applications. This high-quality material offers a durable surface and strong anti-allergenic properties.

We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The rugs can be washed in lukewarm water (<90°F/30°C), e.g. with some mild soap. A soft bristle brush is advisable. Do not dry in electric or gas dryers, and avoid ironing the rugs. Excessive heat will shrink the material. Air or line drying is recommended.

MATERIALS

Webbing:

Used on several products as part of the frame construction. Made in Italy from 100% solution-dyed polypropylene and rubber – a combination that results in a very strong and flexible material. We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The webbing can be washed with lukewarm water (<90°F/30°C), e.g. with some mild soap. A soft bristle brush is advisable. Allow to air dry before covering again with a cushion.

Ceramic:

mindó's ceramic tabletops are made in Spain from porcelain – an extremely strong and almost maintenance-free material. Highly suitable for outdoor use in any type of climate. As the tabletops are made from natural and recycled raw materials, small variations may occur in the surface; this has no effect on the quality of the product.

For day-to-day cleaning, a cloth wrung out in lukewarm water is sufficient in most cases. For stubborn stains, cleaning with neutral or alkaline detergents (not acid-based) is recommended. It is always advisable to test the detergent on a small part of the tabletop first.

Teak:

mindó uses only high-quality teak from responsibly managed and certified forests. Teak is a hardwood well suited for outdoor use, whether oiled or left untreated. If no oil is applied, teak will acquire a grey patina over time. mindó delivers untreated teak. If the warm look of the teak is to be maintained over time, oiling with a suitable teak oil will be necessary. The frequency required for such treatment depends on the climate it is exposed to. Teak is a natural material; therefore, minor cracks and slight warping of the slats may be expected.

HPL:

High-pressure laminate, HPL, is produced in Germany and is well suited for outdoor use. The material is made from resin-impregnated layers of paper pressed together under extreme pressure and heat. The material requires very little maintenance except for occasional wiping with a damp cloth. HPL is frost-proof down to -4°F/-20°C, and heat resistant up to 320°F/160°C. Over time the black core of the HPL will turn grey; this is normal and has no effect on the quality of the product.

Any food stains or liquid stains from tea, coffee or wine should be removed swiftly after they occur. Please be sure not to leave any vases or similar on the tabletops for long periods, as this can lead to colour differences or edge marks in these places. Ordinary washing-up liquid is recommended to remove most stains or marks. Do not use abrasive, acidic or bleaching cleaning agents.

Batyline:

Batyline is a special polyester-coated fabric designed for outdoor use. mindó uses the Eden line, a fabric from the Batyline range – with a unique touch and softness combined with good outdoor resistance. In addition, it is extremely durable and easy to clean, making it especially suitable for hotels, for example, as well as private homes. The material is recyclable and phthalate free.
