The mindo mindset

Combining art & craftsmanship

Mindo is a Danish-based outdoor furniture brand with a sustainable perspective on outdoor living. The mindo collection is created for gardens, terraces, and urban spaces. For families, friends, or time alone.

We design furniture with you and future generations in mind. Throughout the entire process from idea to finished product, we focus on creating innovations and solutions that are both relevant and give our customers a responsible choice.

We love going that extra mile with an idea. Challenging ourselves and the designers we cooperate with. At mindo, a product is not just a product. It is hundreds of hours of seeing how the laws of nature can be challenged,

innovative solutions tested, and functionalities questioned. Sustainability and good craftsmanship are always hovering in the back of our minds, making the challenges greater but the results even more satisfying.

We aim to make all of life's many little moments memorable to you by giving you many possibilities to create your own unique space with welcoming lounge sofas, functional tables, and comfortable dining chairs.

The rest we'll leave up to you.

Our Approach to Sustainability

MADE FOR MOMENTS • MADE FOR MOMENTS • MADE FOR MOMENTS

For 2025 we have circled in on two major goals:

- Innovate our packaging solutions and only use recycled or recyclable materials and specifically reduce the use of plastics by minimum 70%.
- Increase our green energy sources in our production to cover minimum 90% of our total consumption.

But what really matters at the end of the day is not (only) ticking the box for being a conscious brand, but rather how all our business decisions point in the same direction, step by step on a never-ending journey toward being in balance with the environment, and taking responsibility for the resources we use.

By choosing mindo outdoor furniture for your terrace, you are choosing a brand that is committed to making a positive change toward a more sustainable future.

When we design a new product for our mindo collection, we think of the product in its entirety, and of the impact, it will have on our ecosystem. Our aim is to leave the smallest necessary carbon footprint and we choose our materials with this in mind.

Our cooperation with our designers is direct and close, allowing for constructive feedback on every design aspect. The teak slats of the mindo 100 lounge group, for example, are individually replaceable in case of a mishap, extending the life cycle for the entire product. We set challenging goals for ourselves and want to commit to these, well aware we don't have solutions to all the challenges yet.

The mindo design team

At mindo, we are proud of the relationship we have with our designers. We share a love for aesthetics, functional design, and high craftsmanship. And we share a passion for details and a mindset, where we aim to push “good enough” to something better.

Our designers are a diverse group of creative individuals, each of them adding flavor to our collection. The process from idea to finished product is long and involves a close collaboration between mindo and the designers.

Creating authentic designs combining comfort, aesthetics, and function, choosing the right materials, and fine-tuning for production to minimize waste are steps that can take weeks and months of dedication, passion, and hard work.

We are the happiest when we can see our furniture creating special moments around the world. Seeing how our furniture is relevant in many different settings and cultures. Then we can truly say, mindo is made for moments.

“I love working closely with the designers on our new designs. The close partnerships are a gift to all involved as we challenge each other, at times leading to unexpected results. This process is characterized by passion, and curiosity, paired with a humble mindset on both sides, resulting in a strong platform for merging ideas across cultures and creating the innovation we strive for as a brand.”

Thomas Overby, CEO mindo

mindó 100

Designed by
Thomas E. Alken

Modular, Inviting & Beautiful

Our popular and modular lounge group will fit in and stand out no matter the setting. The combination of the durable aluminium frame and the certified teak sides creates a warm, soft-shaped, and very exclusive look. To achieve the same superior comfort as in a high-quality indoor sofa, the cushions are built with layers of memory foam. Due to an inner membrane and high-quality fabrics, the cushions are weather resistant and can be left outside even during summer showers. To complement the mindó 100 collection, add matching coffee and side tables. Available in warm grey or off-white.

mino 100

mindó 100

mindó 100

mindó 100

Modular or not – the choice is yours

With seven different modules, the possibilities are endless on how to create your personal lounge environment. Depending on your available space, you can join corner modules with 2-seaters or daybed modules, then add single or double seaters to extend infinitely. Go beyond the modular setting and add stand-alone elements for a unique look. Our mindó 100 lounge chair, the generous daybed, or our comfortable 3-seater sofa are fantastic additions yet shine just as brightly on their own.

mindø 101

A design story

 Thomas E. Alken
Denmark

“My idea of good design is long-lasting, relevant, and functional products. Comfort is essential for furniture, but just as much is sustainability, both in form of choice of materials and production methods. The mindø 101 chair is the outcome of an ambitious dream; countless design adaptations were made to what may seem like small details, where mindø and I challenged one another in a creative and constructive process, with a lot of hard work on all parts, not least of the talented craftsmen involved.”

MADE FOR MOMENTS • MADE FOR MOMENTS • MADE FOR MOMENTS

Made for moments

The mindø 101 dining chair has a durable aluminium frame, a modeled seat from certified teak slats, and an open-shaped backrest of handwoven rope. It's a comfortable chair – also after long dinners. The unique shape of the backrest invites different sitting postures

and perfectly supports both back and elbows, almost as if embracing the midriff. Add a fitted seat cushion for extra comfort. The fact that the chair is easily stackable only increases its merits.

mindo 101

Designed by
Thomas E. Alken

Sculptural, Stackable, & Comfortable

The mindo 101 dining set of chairs and table offers a sleek, modern combination with high comfort, setting the scene for special moments with family and friends. The unique insert of high-quality ceramic in the certified teak top is not only an eye-catching design feature but serves as a practical detail for placing hot or cold items; the waterproof ceramic is ideal for extreme temperatures. The series encompasses dining tables with a choice of different tops in several sizes, as well as dining and lounge chairs in two colour combinations.

mindom 101

mindo 101

mindó 102

Designed by
Thomas E. Alken

**Elegant, Comfortable
& Durable**

Based on the same design as the mindó 101 chairs, the mindó 102 bar chair is both elegant as well as comfortable. Especially suited for the contract market such as hotels and restaurants, more and more private homes have adopted the relaxed trend of "high dining". Pair the bar chairs with one of the bar tables in the collection with a choice of either a resistant HPL or certified teak top.

mindo 103

Designed by
Thomas E. Alken

Pure, Essential
& Enjoyable

A simple yet sophisticated daybed for the roof terrace or a spot in the garden. The style is minimalistic and clean and will complement other mindo products. Choose between a warm grey or off-white frame for maximum compatibility.

mindó 104

Designed by
Thomas E. Alken

**Nomadic, Elegant
& Functional**

Being mobile is quite relevant when looking for the perfect spot in the garden. Our small side tables are elegant, light, and easy to move around with due to their sculptural handle. The removable top doubles as a serving tray making this a versatile companion both on the terrace as well as the living room. Available in four colours that match the mindó collection.

mindo 105

Designed by
Thomas E. Alken

Graphical, Stackable & Sophisticated

Designed with hotels and spa areas in mind, this sculptural lounge chair's special open-meshed Batyline fabric is ideal, as the seat and back dry quickly when used with wet bathing apparel or after a rain shower. The comfort and functionality are unmistakably mindo and the special aluminium profiles of the frame are constructed for stacking, making the chair easy to handle and easy to store during the off-season.

mind 105

mindó 106

Designed by
Odos Design

Embracing, Comfortable & Charismatic

This comfortable lounge group activates all senses with its curved, organic form of the frame and the abundant use of Italian rope. The soft, wide braid intertwines with the aluminium profiles, weaving in and out of the unique structure, creating sculptural furniture for the terrace. The eye-catching high back lounge chair invites and embraces, giving a feeling of tranquility and seclusion. The collection is made up of two sofas, two lounge chairs, a versatile footstool, and a clever coffee table with a ceramic top.

mindo 106

mindo 106

mindocom 106

mindó

mindó 107

A design story

Rikke Frost
Denmark

“On a visit to Italy with mindo, I learned more about making ropes, about weaving and twisting techniques. I wanted to focus on the craft behind it and created a lounge group to mirror the feel, strength, and possibilities of rope, which is unlike other materials I have worked with previously. It was important for me to show the interaction of the different materials; the contrasts between warm and cold, organic forms versus geometrical precision.”

Made for moments

Combining teak, aluminium, rope, and textile into the organic forms of the mindo 107 products has been challenging but results in beautiful details and a feeling of the shape wrapping itself around the body. The thick seating cushions are molded especially after

the rounded frame and contribute to sublime comfort due to their memory foam. A water-resistant inner membrane keeps the foam dry even when subjected to a summer shower.

mindó 107

Designed by
Rikke Frost

Comfortable, Relaxing & Tactile

This lounge group is all about its organic form and the combination of materials: Tactile rope, smooth aluminium, warm teak, and soft fabric. The design details may be subtle but elevate this lounge group to something unique and beautiful. The loose back cushions send an inviting vibe as does the ample daybed of the series. The mindó 107 collection transforms any outdoor terrace into a new green living room, erasing all boundaries between indoor and outdoor furniture.

**Adaptable, Harmonious
& Versatile**

Only call a tiny outdoor space your own or need stylish extra seating in a heartbeat? The versatile poufs have an aluminium core and are sturdy enough for sitting yet light enough to move around quickly. The harmonious colour and fabric combinations will complement any setting.

mindó 109

Designed by
Rikke Frost

**Vibrant, Functional
& Pure**

The pure look, vibrant colours, and organic shape make the mindó 109 side tables a perfect companion all year round. The glow of the certified teak slats adds warmth and tactility to the sleek aluminium table. Available in four colours to match and complement the mindó collection.

mindocom 109

mindó 110

Soft, Distinctive & Decorative

Add cushions and rugs to the outdoor setting to achieve a warm and inviting atmosphere. Our concept of decorative cushions is built around versatility with cushions having complementary fabrics and colours on each side, giving you more creative choices when adding the final touches to your lounge area. Furnishing your terrace with outdoor rugs will frame your leisure area, establishing an environment of well-being. All materials used are sustainable, fabricated for outdoor use, and of premium quality.

mindø

mindø III

A design story

Jesper K. Thomsen
Denmark

“I’ve been working on an outdoor extension table for many years, brought on by my own need for a dining table that only takes up a minimum of space daily but can seat many guests on special occasions. The use of extension plates does not appeal to me, as storage of these always ends up being a hassle.”

Made for moments

The extension table is a unique innovation by the detail-oriented designer, that is unrivaled in the outdoor furniture market. With a mere pull of one end of the table, the space between the aluminium slats widens seamlessly, adding to the overall length of the table.

Adding room for extra guests has never been easier. We are so taken by this concept, that we’ve added two benches and a practical balcony table, which due to its relatively small width, is the ideal choice for limited spaces.

mindó 111

Designed by
Jesper K. Thomsen

**Extendable, Functional
& Innovated**

Designed for spaces with only a little or a lot of room, for cozy dinners or large gatherings. The mindó 111 dining tables and benches adjust to your needs and are available in either dark grey or dark green aluminium. The clean lines of the innovative design make it an ideal partner for any dining chair.

mindó 111

Stackable, Practical & Comfortable

mindó 112

A stackable aluminium chair, designed for those who prefer a simple and durable design with excellent comfort. Available in either dark grey or dark green, the mindó 112 is a clean-cut companion to the mindó 111 extension table.

mindó 113

Designed by
mindó design team

Open, Transparent & Graphical

The ultimate, no-frills lounge chair with excellent comfort. Ideal for hotels, spas, or restaurants as it is inviting, and easy to maintain due to the aluminium frame and open mesh. The loose back and seating cushions are covered in high-quality fabric with excellent weather-resistant qualities. The mindó 113 lounge chair is available in dark grey or dark green.

mindó 114

Designed by
Christian Juhl

Soft, Comfortable & Innovated

Another fantastically innovative design, the mindó 114 dining chair, and lounge chair combine aluminium, stainless steel, and a specially knitted fabric from recycled plastic bottles. The comfort of the curved back is sublime, supportive yet flexible enough to make long dinners enjoyable and awarding the entire chair an elegant, sculptural look. Two dining tables complement the chairs with their soft-formed design.

mindó 114

mindó 114

mindó 114

mindó 117

Designed by
Rikke Frost

Minimalistic, Practical & Adaptable

Benches are a versatile seating alternative for almost any setting. The mindó 117 benches are no exception and can be placed both inside and outside, wherever the view is spectacular, or a short break is desired. Made of durable aluminium and warm teak slats from certified forests, the benches are available in two sizes. The large bench is equipped with a distinct design feature – a practical bowl for favorite herbs or ice for cooling drinks. The smaller bench is more classical with a clean, minimalistic design.

mindó 118

Designed by
Odos Design

Transparent, Inviting & Sculptural

Mindó 118 is a modern lounge chair with a high backrest and a very special material design that gives the chair a transparent and light expression. The beautifully curved silhouette together with the soft and welcoming cushions combine aesthetics and comfort. The straight and sturdy teak legs contrast with the airy backrest, creating a sculptural lounge chair that is always inviting. A small side table with a simple and elegant aluminum tabletop and teak legs complements the look.

mindó 119

Designed by
Thomas E. Alken

**Tactile, Elegant
& Comfortable**

The mindó 119 dining chair is the quintessence of what a garden chair should be. Modern with a distinct classic expression. Materials that are extremely weather resistant and easy to maintain, and fine design details, revealing themselves at close range: The gently curved teak seat and back slats for high comfort, and the teak armrests that elegantly integrate into the chair's aluminium frame. The mindó 119 is available in four mindó colours: dark grey, light grey, dark green, and off-white.

mindó 120

Designed by
Odos Design

Simple, Functional & Enjoyable

The designers were given a clear task – to bring innovation and sustainability into a classic category. The result is our mindó 120 serving trolley, whose design enables the product to be transported in a flat package and thus indirectly contributes to climate protection. Mindó 120 is made of specially made aluminum sheets with practical holes that drain rain-water. An organic profile forms the frame and handle, and the large wheels makes it easy to move around the patio or between outdoors and indoors.

mindó 121

Designed by
Jesper K. Thomsen

Easy, Adaptable & Comfortable

The desire to create a modern and sustainable chair for small outdoor spaces gave birth to our mindó 121 folding chair. A folding chair embodies the concept of minimal volume, both in shipping as well as when storing at home. The seat and back slats' bamboo stems from certified forests; bamboo is a fast-growing grass species recognized for its robust and sustainable qualities. The mindó 121 folding chair is a perfect companion where there's a focus on space and sustainability.

mindó 121

mindó 121

Materials

Group 1 Fabrics

Our Group 1 fabrics are made from high-quality, 100% solution-dyed acrylic fibers produced in Spain (Citel) and France (Sunbrella). Both Citel and Sunbrella are designed for outdoor use and come with a repellent surface that is hydrophobic and delays the adhesion of stains and dirt. This effect will decrease over time depending on the climatic impact.

We suggest cleaning with a soft bristle brush and lukewarm water/mild soapy water. Air drying is recommended to prevent mildew. We propose cleaning the cushions regularly depending on the climate; stains and dirt should be removed swiftly after they are discovered. Do not steam-iron the fabric; only use a dry iron on the lowest temperature setting, e.g. through a cloth. It is advisable to test a small area first.

Group 2 Fabrics

Group 2 fabrics are manufactured in Italy and made from 100% solution-dyed Olyna fibers. Olyna fibers offer great resistance for many years to sunlight, dirt, chlorine, and sunscreen lotion due to a patented spinning process that adds special UV protection and antioxidants to the fabric. It is recyclable and designed for outdoor as well as indoor use. This high-quality material offers an unusually soft, “wool-like” surface, which is not only very comfortable but also has strong anti-allergenic properties.

We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The fabric can be washed with lukewarm water (<30°C/90F), with mild soapy water. A soft bristle brush is advisable.

Do not dry in electric or gas dryers, and avoid ironing the fabric. Excessive heat will shrink the fabric, we recommend air or line drying.

Group 3 Fabrics

Group 3 fabric Batyline Eden is manufactured in France from 100% coated polyester with exceptional outdoor qualities and a unique soft and “wool”-like tactility. Batyline Eden is extremely durable, easy to maintain, and dries quickly after rain showers, making it ideal for hotels and restaurants as well as for private homes. The material is recyclable as well as phthalate free.

Ropes and Rugs

Our rope material and our rugs are made from 100% solution-dyed Olyna fibers. Olyna fibers offer great, long-lived resistance to sunlight, dirt, chlorine, and sunscreen lotion due to a patented spinning process that adds special UV protection and antioxidants to the fabric. It is recyclable and designed for outdoor as well as indoor use. This high-quality material offers an unusually soft, “wool-like” surface, which is not only very comfortable but also has strong anti-allergenic properties.

We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The fabric can be washed with lukewarm soapy water (<30°C/90F). A soft bristle brush is advisable. Do not dry in electric or gas dryers, and avoid ironing the fabric. Excessive heat will shrink the fabric, we recommend air or line drying.

Webbing

Webbing is used as part of the construction in several of our furniture. It is fabricated in Italy and made from

100% solution-dyed polypropylene and rubber, resulting in a very strong and flexible material.

We recommend frequent vacuuming or lightly brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The webbing can be washed with lukewarm water (<90°F/30°C), e.g. with some mild soap. A soft bristle brush is advisable. Allow to air dry before covering again with a cushion.

Aluminium

Aluminium is a lightweight, yet strong and durable material and ideal for outdoor furniture due to its resistance to corrosion. All our aluminium undergoes a high-quality, solvent-free powder coating for extra protection from Austria before being processed. Even though the production of aluminium is energy-consuming, its longevity and the fact that it is infinitely recyclable makes the material still a very sustainable choice.

Ceramic

mindo's ceramic tabletops are made in Spain from porcelain – an extremely strong and almost maintenance-free material. Highly suitable for outdoor use in any type of climate. As the tabletops are made from natural and recycled raw materials, small variations may occur in the surface; this has no effect on the quality of the product.

For day-to-day cleaning, a cloth wrung out in lukewarm water is sufficient in most cases. For stubborn stains, cleaning with neutral or alkaline detergents (not acid-based) is recommended. It is always advisable to test the detergent on a small part of the tabletop first.

Teak

Mindo uses only high-quality teak from responsibly managed and certified forests. Teak is a hardwood well suited for outdoor use, whether oiled or left untreated. If left untreated, teak will acquire a grey patina over time. If the warm look of the teak is to be maintained, oiling with a suitable teak oil will be necessary before taking the furniture in use. As mindo delivers only untreated teak, the choice is yours. The frequency required for such treatment depends on the climate the furniture is exposed to. Teak is a natural material; therefore, minor

cracks and slight warping of the slats may be expected and are not a sign of inferior quality.

HPL

High-pressure laminate, HPL, is produced in Germany and is well suited for outdoor use. The material is made from resin-impregnated layers of paper pressed together under extreme pressure and heat. The material requires very little maintenance except for occasional wiping with a damp cloth. HPL is frost-proof down to -20°C/-4°F, and heat resistant up to 160°C/320°F. Over time the black core of the HPL will turn grey; this is normal and has no effect on the quality of the product.

Any food stains or liquid stains from tea, coffee, or wine should be removed swiftly after they occur. Please be sure not to leave any vases or similar on the tabletops for long periods of time, as this can lead to colour differences or marks from the object. Mild liquid detergent is recommended to remove most stains or marks. Do not use abrasive, acidic, or bleaching cleaning agents.

Bamboo

Bamboo is a natural and very strong material that is considered highly sustainable as it can be harvested every 4-6 years. Bamboo is flexible, elastic, and thus resilient to breaking, even when under pressure. All bamboo has been oiled as well as treated with a fungicide during production and can be used immediately. Even though a bamboo surface is extremely hard, the material can dry out and thus become porous and brittle. Bamboo has different characteristics than wood and should be cared for and treated accordingly. Bamboo furniture needs regular care in form of a light oiling approximately 3-4 times a year, dependent on climate. Bamboo can slightly fade in colour due to UV rays and weather influence, but proper maintenance, cleaning, and regular oiling will keep your furniture beautiful and intact for many years. A colour fade does not degrade the product.

Mindo cannot be held accountable for any printing erros in the catalogue. Further, mindo reserves the right to change product designs in case it is found necessary.

This catalog is printed on paper certified with the Nordic Swan Ecolabel, is CO₂-neutral as well as FSC-certified.

The paper was chosen because it emits less CO₂ during production and transport than other directly comparable types of paper. The FSC certification shows that the paper comes from responsible forestry, where traceability, social responsibility, and securing the biodiversity of the forest are documented. The printing company Strandbygaard is certified with the Nordic Swan Ecolabel as well as being environmentally certified under ISO14001, ensuring that production complies with numerous strict requirements.

mindō®

Made for moments

Mindo is a Danish-based outdoor furniture brand with a sustainable perspective on outdoor living. The mindo collection is created for gardens, terraces, and urban spaces. For dining and for lounging. For families, for friends, or time alone.

Mindo is made for moments.
