Colours

Dark Grey

ALU FRAME:
Dark Grey 070

ROPE:
Dark Grey

CERAMIC TOP:
Opium Black

FABRIC:
Sunbrella
Sooty

Light Grey

ALU FRAME:
Light Grey 010

ROPE:
White Beige

CERAMIC TOP:
Steel Chrome

FABRIC:
Sunbrella Silver
Grey

Materials & Care

ALUMINIUM is a lightweight, yet strong and durable material and ideal for outdoor furniture due to its resistance to corrosion. All our aluminium undergoes a high-quality, solvent-free powder coating for extra protection before being processed. If the coating is damaged due to dents or scratching, moisture can invade and eventually damage the aluminium. Regularly remove dirt with a sponge or soft brush, lukewarm water, and a mild dishwashing detergent. Never use solvents. Thoroughly rinse with clean, fresh water after cleaning to remove all soap and dirt residue.

ROPE is made from 100% solution-dyed Olyna fibers. Olyna fibers offer great, long-lived resistance to sunlight, dirt, chlorine, and sunscreen lotion due to a spinning process that adds special UV protection and antioxidants to the fabric. This high-quality material offers an unusually soft, "wool-like" surface, which is very comfortable and has strong anti-allergenic properties. We recommend frequent vacuuming or brushing off dirt/dust to avoid stains or mildew. Most dirt and stains can be cleaned off if treated promptly. The fabric can be washed with lukewarm, soapy water (<30°C/90°F). A soft bristle brush is advisable. Do not dry in electric or gas dryers, and avoid ironing the fabric. Excessive heat will shrink the material, we recommend air drying.

CERAMIC tabletops are extremely strong and almost maintenance-free, therefore ideal for outdoor use. Ceramic is made from natural and recycled raw materials. Small variations might occur on the surface which has no effect on the quantity of the product. Daily cleaning is done with a soft cloth and lukewarm water. For heavier staining, use a neutral or alkaline cleaner (never acid-based). Always rinse well after cleaning to remove all soap and dirt residue.

FABRIC (SUNBRELLA) is made from high-quality, 100% solution-dyed acrylic fibers produced in France. Sunbrella is designed for outdoor use and comes with a repellent surface that is hydrophobic and delays the adhesion of stains and dirt. This effect will decrease over time depending on the climatic impact. Clean with a soft bristle brush and lukewarm water/mild soapy water. Air drying is recommended to prevent mildew. We propose cleaning the cushions regularly depending on the climate; stains and dirt should be removed swiftly after they are discovered. Do not steam-iron the fabric; only use a dry iron on the lowest temperature setting, e.g., through a cloth. It is advisable to test a small area first.

Storage & Covers

The mindo 106 lounge group can be left outside during the entire summer season. During the off-season, we recommend storing your furniture in a dry and ventilated place, like a covered patio or similar. This will give your furniture maximum protection and make spring cleaning easier. Alternatively, store the furniture under a furniture cover. A cover should be placed in such a manner that it is kept slightly away from the furniture to minimise condensation and allow for free air circulation. Condensation forming under the cover during storage, as well as furniture or cushions that were damp before storage, can cause mould and mildew. Therefore it is vital that the furniture as well as any cushions are completely dry before storage. Checking the stored furniture regularly and letting moisture escape by lifting the cover on dry days is helpful. We recommend storing any loose cushions upright or in a slanted position for maximum air circulation. Placing them with their backside up will protect the more visible parts if staining should occur.

mindō 106 lounge chair: Cover no. 1

mindō 106 highback chair: Cover nr. 7

mindō 106 2,5-seater sofa: Cover no. 3

mindō 106 3-seater sofa: Cover no. 8
